

Risk Assessment Policy (CSS#5)

Background

The Child Safe Standards came into effect on August 1 2016. All Victorian schools must comply with Ministerial Order No. 870 - Child Safe Standards to create and maintain a child safe organisation.

Huntingdale Primary School, as part of the Victorian Government school system have an important responsibility for its keeping children safe, including international students. We need to identify, assess and document the school's risks in relation to child safety, health and wellbeing and plan and document risk management strategies where necessary.

Purpose

To ensure:

- Huntingdale Primary School is a safe environment for everyone- students, staff, parents and visitors.
- Is compliant with Department of Education and Training (DET) and the Victorian Registration and Qualifications Authority (VRQA) policies and procedures, the Education and Training Reform Act 2006, Ministerial Order No. 870 and relevant OHS legislation.
- Maintain the DET values of integrity, leadership, respect, human rights, responsiveness, impartiality and accountability.

Implementation

- The Principal has the overall responsibility of implementing this policy, but may delegate certain roles to suitably qualified staff.
- Huntingdale Primary School will use the PROTECT risk assessment template (Child Safety Risk Assessment document) for identifying and reducing or removing risks of child abuse.
- In addition to this:
 - A risk register will be in place for the camps and excursions policies.
 - An Occupational Health and Safety Risk Register (DET) is kept up to date on the school server.
 - The school has an effective sign in procedure to manage visitors in the school.
 - The has the following policies to help manage risks:
 - Volunteers
 - Visitors
 - Duty of Care
- Risk management process will be documented, recorded and reviewed periodically.
- Effective risk management strategies are dynamic and change over time as new risks arise and others may no longer be relevant.

A key part of a risk management strategy is a risk assessment. Risk assessments can take many forms. An example is provided below. Risk assessment resources form part of the [School Policy & Advisory Guide: Risk Management Policy](#). An example is provided below to assist schools in their risk assessment.

Each school will be different and must undertake their school specific assessment.
