SCHOOL NEWSLETTER - THURSDAY 18TH SEPTEMBER 2025

TERM 4

Term 4 Curriculum Days -
Book them into your calendar now!

Friday 31st October – Curriculum Day
Monday 3rd November - Combined
Professional Practice Day
Friday 19th December – Curriculum Day

*Please note, the last day of school for
2025 is Thursday 18th December,
children will be dismissed at 2:30pm.*

As we come to the end of Term 3 and get ready to celebrate with our Wear your Team Colours Day, I would like to take this opportunity to thank our students, staff, KPG and families for their continued commitment and support throughout a busy and productive term.

As we head into the holiday break, I wish all families a safe, restful, and enjoyable holiday, making many fun family memories

Term 4 promises to be an exciting and important time, especially for our new preps transitioning in and for our year 6 students preparing to leave.

We look forward to welcoming everyone back refreshed and ready for the final stretch of the school year (hopefully with some warmer weather!) on Monday 6th October.

Thank you once again for your ongoing partnership in supporting the learning and wellbeing of our students. Teamwork truly does make the dream work!

Gill Gray

**TOMORROW IS THE
LAST DAY OF TERM**

Friday 19th September

Whole School Assembly

Footy Dress Up Day

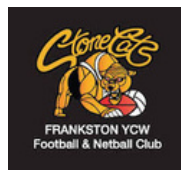

KPG - Footy Pie Day (Lunch)

**Last day of Term 3 with 2.30pm
dismissal**

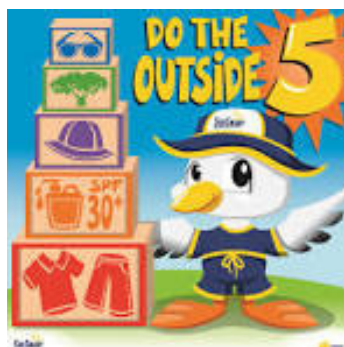

Be Safe

Be Respectful

Scholarships to support students

Scholarships are available for eligible students in Grade 4 to Year 11, and for Year 12 students planning to do tertiary studies in 2026. Student scholarships

The Department of Education administers a number of scholarships that are available to eligible students who are enrolled in Grade 4 to Year 12 in 2025. Applicants for these scholarships will be evaluated on their:

- participation in school activities
- community involvement
- academic achievement.

Scholarships are either one-off payments or cover the duration of the student's course or annual study.

Many of these scholarships have specific eligibility criteria, so please refer to individual applications for more information. Applications open on Wednesday 1 October 2025 and close on Monday 2 February 2026. For more information and a list of available scholarships, refer to the [Student scholarships for Grade 4 to Year 12 fact sheet](#). For information on how to apply, refer to [Student scholarships](#).

Term 4 Curriculum Days Book them into your calendar now!

Friday 31st October

Monday 3rd November
Staff Professional Practice Day
Student Free
and
Friday 19th December

The KP Group will next be meeting on Thursday 9th October @ 9am.
Please join us to discuss fundraising and Term 4 events.
All welcome.

2026

2026 is approaching fast!

2026

Time to Plan Ahead! I respect that it is scary to think about 2026, but we are beginning to look at our enrolment numbers, staffing and whole school structure.

If you have any intentions to unfortunately leave KPPS and not be with us in 2026, please let the school office know ASAP. Your decision does not need to be confirmed and does not mean your child loses their spot if you change your mind but giving us a heads up is very helpful.

This information is vital for the school to budget and plan for staffing in 2026. We do not want any children to be stuck in classes that are too big or only have a few kids, but this relies on us knowing who will be here.

If you suspect you may be moving house or school, please communicate this to the school office as soon as possible.

Juniors

Past to Present

During Term 3, Junior students have been investigating what has changed over time. To finish off our awesome adventure into History; we immersed ourselves into experiencing things of the past like: watching an old Disney cartoon, exploring clothes and hats from the 40's, 50's and 60's (thanks to Elyan and Elroy from J10) and, checking out Mr Gardner's 1954 Ford Mustang.

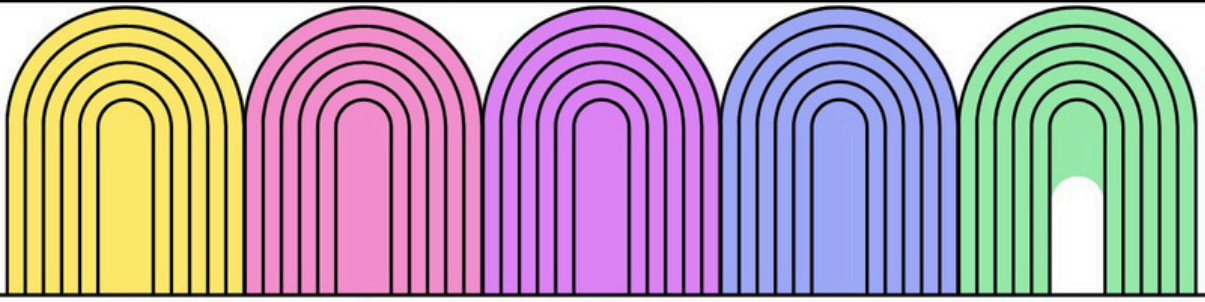

On Tuesday 16th of September, we took a journey into the past with a trip on Puffing Billy. It was such a wonderful day full of learning and fun.

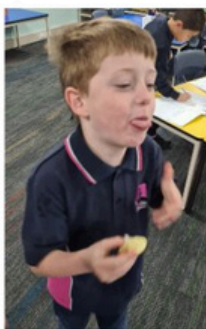

Puffing Billy Excursion

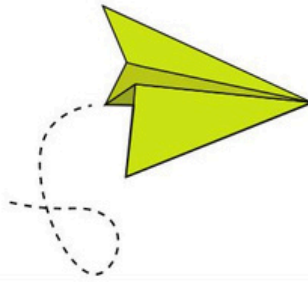

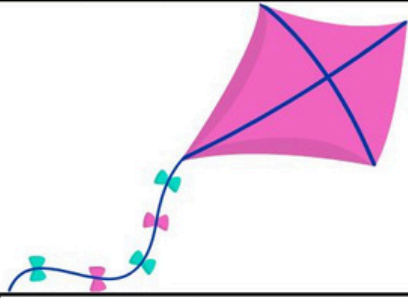

YEAR 1 STEM

This term in STEM, our Year 1 students learned all about light and sound. They found out how they were made and how we used our senses to notice them. They had fun tasting foods that were sour, sweet, bitter, and salty, and feeling different textures in mystery boxes. They also explored 8 different jars with different smells—some were yummy, and some made them wrinkle their noses! They discovered that the Sun is a natural source of light and that we can only see things when there's light shining on them. They also explored what happens to shadows when a torch was shone on an object, noticing how the shadows could change size and shape. The Year Ones enjoyed making cup telephones to see how vibrations create sound. During all these activities, the students practiced being little scientists by asking questions, making predictions, and writing down what they found out.

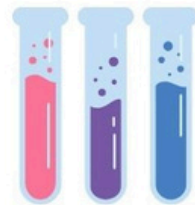

PREP & YR 2 STEM

In Term 3 STEM, the Foundation and Year 2 students had lots of fun learning about flight! They made their own flying creations, including helicopters, kites, planes, hoop gliders, and even roomerangs. The students tested how far and how high their flyers could go, using their Maths skills to informally measure the results. They also discovered some cool Science ideas - like how the size and shape of an object can change the way it moves, and how pushes and pulls help things fly. They even learned about the four forces of flight - lift, thrust, drag, and weight - and how these work together to help objects fly.

What's been happening in Middles and Seniors?

STEM

SCIENCE • TECHNOLOGY • ENGINEERING • MATHEMATICS

Crazy fun with Chemical Science!

During Term 3, students from Years 3-6 conducted theory and experiential lessons to learn about Chemical Science. They learned about 'matter' which are the tiny particles that make up everything around us taking up space. Atoms are the basic building blocks of matter, and molecules are formed when two or more atoms bond together. Students completed experiments to help them understand the different ways chemicals react and that; solids, liquids and gases have observable properties. Adding or removing heat energy leads to a change of state between solids, liquids and gases. They also observed that mixtures can be formed by combining 2 or more different

CHECK

substances.

OUT

our cool experiments!

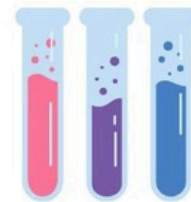

Students learned that *invisible ink* was used for sending secret messages during World War 1. In this experiment the students used  juice to write messages and discovered that when the lemon juice dried it became invisible and in order for the message to be read, heat needed to be applied.

Students created **crystals** in a jar using pipe cleaners, food colouring and borax. Crystallisation is the process of atoms or molecules arranging into a well-defined, rigid crystal lattice in order to minimize their energetic state.

What's been happening in Middles and Seniors?

Crazy fun with Chemical Science!

Students created slime using cornstarch, dish washing liquid and food colouring. Liquid slime occurs when you bond the molecules of cornstarch and dish washing liquid together.

Students experimented with chemical reactions between chalk, vinegar and water. They noticed that the chalk broke down much faster when in the vinegar and this caused bubbling and fizzing.

Our most fun experiment was fireworks in a jar. Students added oil and food colouring to water in a jar. They learned that colouring, like water, is denser than oil, it has more atoms packed tightly together than oil, so droplets of food colouring sink to the bottom of the oil. **BUT** when the oil and colouring are poured into the water, the oil floats to the top carrying the food colouring inside of it.

VISUAL ARTS - TERM 3

We started the term with a focus on Indigenous artists and Dreamtime stories. Preps created rainbow serpents, grade ones made sand art and grade 2s explored connection to place by painting Boonwurrung landscapes on postcards. There has been a buzz in the art room this term as the Prep and Junior students immersed themselves in their 'Underwater World' and 'Fantastic Fish' units. They have experimented with a range of mediums and art forms such as painting, drawing, printing, sculpting and paper craft. Students have studied closely the features of fish, jellyfish and coral.

And, they have been wowed by the effects of the UV light on their neon artworks as we prepare for a spectacular art show next term featuring a glow room to exhibit their wonderful works.

Lauren Charlton - Visual Arts Specialist

Grade 6 Poetry

Keetan's Ode to a Shining Star

Dear Shining Star,

You were there when no one else was,
I will remember you, like a dolphin,
Even if we don't go on the same journey,
you guide me like a compass,
Oh shining star, how I adore you.

August's Ode to Bed

Dear Bed,

You're like a cloud for sleep,
Like a charger for a human,
You're a final station, a warm hug for sleep.
Oh bed, how I adore you!

Kad's Ode to his Drink Bottle

To my drink bottle,

Oh drink bottle, you are the luminous hope in my life,
you're as cold as a winter's whisper,
Like a beacon of hope in a thirsty world,
proudly holding it's cold contents,
Oh drink bottle, how I adore you!

Earth slam poetry by Dakota

We're killing the earth and you think it's fun, but no one believes us because we are young. While starving people just sit there in nothing.

As you walk around just thinking their bluffing, go ask world hunger they'll tell you about it. They'll tell you how they starve everyday, while selfish people don't take their hunger away.

They go around asking for money as you just laugh thinking. "Ha." That's funny. But they're dying and I'm not lying when will you first world people start trying. People are lost: they don't know what's left as they look up to the sky and hope they'll get blessed.

You're not realising that you. You! Are driving animals to extinction. You know what a tiger or an elephant is right? Well in 2045 they will never see those animal pictures in their eyes.

Trees are like bees, when they die they can't be re alive unless a new plant has been planted. But you don't care, all you care about is your phone. Go touch some grass for once.

Look at the birds.. boom gone because of us.

Trees.. gone because of us. Now we can't breathe, it feels like everything is gone.

All the gas in the air is causing toxin in the air.

Dear 2045 I don't think we will survive. Nothing is left, it looks like Saturn, it may just be that we are Saturn.

If you see...this I'm sorry. 12/9/2025

Netball a Slam Poem by Holly M

Netball! Netball brings me joy,

The long training day brings pain, but I don't care...

Winning! It feels like someone's just given me the world.

The adrenaline rush that it gives me when I play.

The shots at goal, sorrow and pain if I miss, but joy, joy and hope when it sinks.

The hours and hours of training, the pain and joy.

All a big rollercoaster.....

No one understands how much I live for netball, without it I can't feel the oxygen that should be filling me.

I don't care if it's raining or thunder, storm,y or sunny, windy....

Who cares! I'll be playing and If I'm not playing I'm thinking about it, or wishing I was playing.

Blue - by Sav C

Blue sounds like waves lightly splashing against the shoreline.

Blue smells like fresh blueberries on a farm, or freshly washed clothes that just came out of the dryer.

Blue feels like the wind brushing through your hair on a perfect, sunny day.

Blue looks like water falling from a waterfall or poppies that fall perfectly in line.

Blue tastes like lemonade tingling on the tip of your tongue.

Blue is sadness

Purple - by Hannah

Purple looks like a new , sparkly amethyst,
Purple sounds like a storm in the middle of the sea,

Purple smells like lavender in a field,
Purple feels like a cosy hug from my Mum,

Purple tastes like a crunchy grape,

Purple is loyal.

Red - by Ras

Red looks like a fast car, zooming in the streets, flames shooting from the exhaust,

Red sounds like the roar of an engine,

Red smells like brisket in the smoker,

Red feels like a warm blanket,

Red tastes like burning chilli paste on my tongue,

Red is life.

AFL by Luca

The field's a battlefield, a gladiator's arena,
The roar of the crowd, the clash of the teams
AFL's not just a game, it's a damn religion.
Strap on your boots, lace 'em tight,
The siren's a heartbeat, the fight's in sight.
It's a mark in the air, it's the wind in your hair,
It's a dive for the ball, no one's scared,
Feet on the turf, blood in the veins,
Chasing the dream, breaking the chains.
Fifty meters out, the goalposts stand tall,
You line it up, you don't fear the fall.
A drop punt precision in flight,
In the blink of an eye, it's out of sight.
And the crowd goes wild, like a wave of sound,
The players, the warriors, they own the ground.
From the MCG to suburban lights,
AFL's alive, it's reaching new heights.
It's the snap of the ball, it's the thud of the boot,
It's the bruises you wear, the pride in your pursuit.
It's the blood, sweat, and tears you pour,
It's not just a sport, it's a way to roar.
For the underdogs, the heroes unsung,
For the legends of old, the songs are unsung.
AFL's a heartbeat that never fades,
A legacy written in every tackle, every grade.
From the ruck to the wing, from the half-back line,
It's a battle of will, a test of the mind.
So we stand, we shout, we give it our all,
In the name of the game we rise and we fall.
So take your mark, it's your moment to shine,
AFL's more than a game, it's life, redefined.
And when the final siren's heard loud and clear,
We'll still be screaming, we'll still be here.
That's AFL unfiltered, raw, and true.
A fight for glory, and the love of the view.

Why is the world so cruel?
If you do anything they dislike BAM your labelled
uncool. If you cry you're weak if you're too happy,
your weird

**STOP JUDGING PEOPLE LIFE IS NOT A
POPULARITY CONTEST!**

Stay in your lane instead of calling people lame
don't bully them for their name or from where
they came.

LEAVE PEOPLE ALONE. Life is already hard.

Don't call people large that goes to the head
next minute their lying in a hospital bed refusing
to take their meds so they don't end up dead.

Stop. Take a breath. Look at you. You're perfect.
Don't compare. So what if people stare? I know
life isn't fair. At the end of the day, you're
gorgeous. Your body, your eyes, your hair.

by Georgia

Grade 6 Poetry

Anxiety creeps up on me I need to breathe
Inhale exhale
My heart being played like a drum I feel my chest about to
burst
Inhale exhale
My legs wobbling I feel faint
My heart beating every beat I paint
Every move I make the slower every one else moves
What's going on? Why am I feeling this
I need to count to ten or search my surroundings
Inhale exhale
Laying down on my bed that feels like a bubble I rethink the
conversations I had
Should I have said that?,
oh that was embarrassing, why am I like this
I can't even sleep at night
My anxiety haunts me I don't understand, I can't breath
I'm to scared my hands they won't stop shaking
I need air
Just breath,
don't think, take the air and swallow breathe
Inhale exhale
I ask to go wash my face and I come back this is one of my
anxiety attacks
My strategy on how I work through them is by breathing
Inhale exhale
And move on.....Inhale.....exhale.....

By Shiloh

My fish

One by one the fishes go but Fishy stays,
Fishy knows.
Fishy has been there for the highs and the
lows,
when I feel sad I sit and watch him go around
the tank, around the ship, through the hole.
Faster than lightning, never stopping once.
Sometimes coming up to the surface just to
eat his lunch.
I have had lots of other fish but nobody
compares to this fish here who has been
there for years.

By: Mavis Bowman

Marle, our Education Support dog

Over the past 2 terms, we have been fortunate enough to have Marle and her trainer Kendall working with some students here at Kingsley Park. Working with Canine Comprehension, we have run sessions for students to build confidence, improve emotional regulation, and develop stronger social skills. With guidance from their experienced mentor Kendall and happy therapy dog Marle, students learnt how to feel safe to express themselves, try new things, and discover a genuine love of learning.

The result? Happier, more resilient young people who are ready to thrive at school and beyond.

Last Friday was a sad day for many as they farewelled Marle and Kendall who they have grown very fond of.

Some made cards to express their appreciation of Marle and Kendall and the fun they had together.

Students received a lovely card and personalised sticker from Marle and Kendall.

We also have 2 soft toy puppies for students to use when needed at school.

This opportunity was affordable through a funding grant from the Department of Education.

My aim will always be to have our own therapy dog back at Kingsley Park. They can make such a difference for many students.

LIVE IT, LOVE IT! FIS AF NATIONALS 2025

On the 26th & 27th of August I competed at the FISAF 2025 Nationals in Queensland on the Gold Coast in Sport Aerobics. I am part of Action Sport Aerobics in Cranbourne and my coaches are Georgia, Lara and Jack. I trained hard 2 times a week for my solo and trio. I also did extra training with Jack who is the World Champion.

At Nationals I competed in a solo and a trio. I felt great about my routines and the best part was having fun with my friends. I felt nervous at first but then I went on stage and I had so much fun. I got to cheer on my team and scream 'Let's Go!!!' I came top ten in both my solo and trio and I can't wait to get better on stage and compete again next year.

By Harper Gardner (M5)

FANTASTIC

Prep bags 2025 survey

Each year, the Department of Education gives every Prep student attending a Victorian government school a bag full of goodies to celebrate this milestone in their education journey. The educational resources and information in the bags are aimed at helping Prep students and their families have a great start to the year.

The department is inviting parents and carers of current Prep students to complete a short survey about the 2025 Prep bags, by 11:59 pm on Sunday 26 October 2025.

Your feedback will help the department learn what families liked and what can be improved in 2026. You can have your say at Prep bags 2025 evaluation survey.

The survey takes 5 to 10 minutes. It is voluntary. Responses are anonymous and will not be shared with third parties outside the department. For more information about this year's Prep bags, refer to Prep bags.

TAC

ROAD SAFETY
EDUCATION
VICTORIA

Make the journey to primary school as safe as possible for your child.

The TAC has developed a range of new resources just for Prep families – engaging content and simple, practical advice to help parents and carers establish safe travel habits from day one.

Scan this QR code and view the resources to spark important conversations about safe travel to and from school.

Helping our youngest students travel safely to and from school is a priority we all share.

Let's work together to make every school journey a safe one.

SRC Fundraising - Term 4

Zooper Dooper sales return next term on Tuesdays and Thursdays for \$1 each.

Students are limited to only buying 1 Zooper Dooper.

This Friday, Saturday & Sunday, Ritchie's Towerhill will have Zooper Doopers on special for half price! This coincides beautifully with Zooper Doopers returning in Term 4.

If you are shopping at Ritchie's and are able to purchase a pack for donation, we thank you for supporting the SRC fundraiser. Donations of Zooper Doopers can be sent along to school at any time.

Thank you

THANK YOU

Popcorn

Thank you to our KP Group and the many volunteers who have assisted with 'Popcorn Wednesday' this term.

Through popular demand, popcorn Wednesday's will continue into term 4.

The children have all enjoyed the opportunity to purchase popcorn on Wednesdays and it has been a solid fundraiser for our school community.

Thank you to our KPG who have volunteered their time to assist with this for our Kingsley Kids.

1300 035 000

The end of term 3 is near - we wish our members all the best in reaching their graduation goal for 2025.

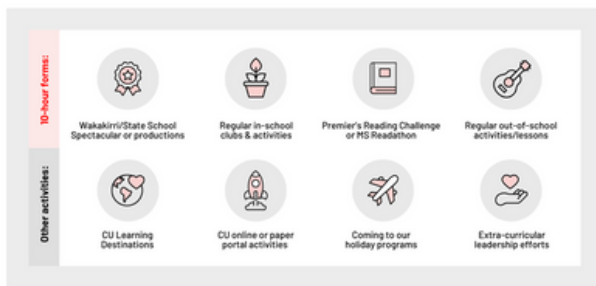

A reminder, members have until Oct 6 (3 weeks away) to earn hours in their passport, to count towards this year's CU Graduation. Some students are looking to earn some final hours over the holidays, keep an eye on our socials for some fun activities.

With so many activities to explore, every member has the potential to get to 30 hours!

Students MUST bring their passport on their first day back so we can tally their final hours by Wednesday October 15. We will then determine who is invited to graduation from that data provided.

Thank you to all students who joined Children's University this year and to their families for supporting these extra curricular activities while having fun.

There are many ways that CU members can earn more hours: 🌟

CU@Swinburne
Aviation: Up in the air!

Take flight these school holidays with a hands-on aviation adventure at Swinburne!

Explore the world of aviation by finding out what it's like to fly an airplane. Work as a team to design your own airline and test your paper plane experiments across campus.

With flight simulators, aviation experts, and a peek into the CU graduation coming up, this will be a holiday experience that is truly uplifting!

At Kingsley park this year, Brock is currently our our highest hours earner and Brock and Nan have shared some of his great learning activities;

This is a gem!

📍 Thomas Street Accessible Park, Hampton- A Place for Everyone

It's an interactive park where every feature has been created with inclusion in mind. It's a place where learning and play connect naturally.

We highly recommend Thomas Street Accessible Park as a CU learning destination. It provides the perfect environment for students to reflect on the importance of community spaces that are open to everyone. It's an example of inclusion done right, and it's a joy to see children and families of all backgrounds making memories there.

🌟 if you haven't visited yet, we encourage you to make the trip. It's more than a park—it's a living classroom under the open sky.

Fay and Brock

Yakult Factory Tour

— A Children's University Learning Destination —

Brock and I had the wonderful opportunity to tour the **Yakult Factory** in Dandenong. The experience was not only fun and interactive, but also highly educational. We learned how Yakult is made, the science behind probiotics, and why **gut health** is so important for overall wellbeing.

Throughout the tour, Brock's enthusiasm shone. He asked thoughtful questions, engaged with every part of the session, and impressed our guide, **Kate**, who invited him to return for Yakult's upcoming **Holiday Program**. Brock has also been given the very special chance to make a **film with Yakult Man** — an opportunity that has filled him with excitement and pride.

This experience has been invaluable for Brock. It has:

- Sparked his curiosity about science and health.
- Strengthened his confidence in engaging with adults in a learning environment.
- Given him a deeper understanding of the importance of looking after his body through gut health.

We are so impressed with Yakult as a company. Not only are they leaders in producing a trusted probiotic drink, but they are also **at the forefront of educating children** in a way that is memorable, enjoyable, and inspiring.

We highly recommend the Yakult Factory Tour as a **Children's University Learning Destination**.

Fay and Brock

Children's University Swinburne | 2025

From a Kingsley Park PS family:
We are loving the program, we are fully immersed now. We are excited to be discovering more about where we live and our city of Melbourne. We now visit learning destinations every weekend and having lots of fun... We are cultivating a life of learning.
Thank you for your support.

Ages: 7-14

Registration Fee

9:00am-2:00pm

\$104

Become a Junior Keeper for a Day and experience life behind the scenes at Moonlit Sanctuary.

- Meet and feed our amazing Australian animals
- Help with real-life wildlife care
- Learn about conservation and animal behaviour
- Get hands-on with enrichment activities, animal diets and more

Unplug the devices and send your junior explorer off for an unforgettable day with real keepers, real animals, and real adventures.

Moonlit Sanctuary
the best way to see Aussie animals

Bunurong Sports Club

This for any Aboriginal/Torres Strait Islander students who may be interested in playing at the statewide Koorie football and netball carnival. This is a great weekend of culture and community, with some sport thrown in.
